## 1 UPLOAD TAG SHARE

Set your **PPM** (price-per-minute) for your video. When you are done, click "Okay" so you can share and respond with friends, family and colleagues (your "vine")!

PPM: \$00.01

You can set the **PPM** at any amount you choose, up to \$99.99, however, we recommend keeping the price as low as possible so other viners will be encouraged to watch.

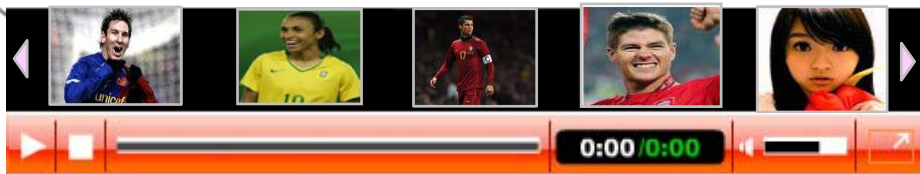

\$00.01 (one cent) per minute is typically a good amount to charge when starting to build a following. This is the equivalent of charging \$1.30 to watch a 90 minute movie.

## ABOUT US

### WHAT IS PUBLICVINE?

PublicVine is the first Transactional Social Video Platform (SVP) to monetize social media for video owners while supporting charities worldwide. Based on its founder's belief that the content belongs to the creator, PublicVine enables users to provide and consume premium and exclusive pay-per-view, on-demand and streaming content on mobile-web devices.

*By uploading and streaming unique content, PublicVine's subscribers can make revenues and share them with their social network ("vine") as well as with the social causes they care about—capabilities not available on other platforms.*

PublicVine was designed and founded by Nam Mokwunye, a Nigerian-born technology transfer strategist at Stanford University's Center for African Studies, in Silicon Valley, USA, in July 2009. Mokwunye registered the company in March 2010.
