

# ALL IN ONE LEAN MUSCLE MASS

Depressed with thin skinny bodies? Trying to get a good muscular one? Then besides hard work you need a right combination of great quality nutrients: Protein, Carbs and Fats along with other essential nutrients. Basically you require a muscle gainer. But which one shall I go for? What is the best for me? How will I know its good for me? Are the biggest and unexplained questions arising when it comes to selection of a desired muscle gaining formula. The second problem is the difficulty of getting all nutrients required by the body in one single formula.

To solve your problem **ULTIMATE NUTRITION** brings to you the complete muscle gaining formula – **ISOMASS XTREME GAINER** which is loaded with all essential macro as well as micro nutrients in desired amounts to nourish your muscles and help them grow. But why **ISOMASS XTREME GAINER** not any other formula? Below given are some important merits of **ISOMASS XTREME GAINER** over regular gainers in the market.

## ULTIMATE COMBINATION OF MACRONUTRIENTS

Muscle building needs a well balanced combination of proteins and carbs along with healthy fats. But their quality plays an important role. **ISOMASS XTREME GAINER** contains high quality protein along with time release complex carbohydrates. It also contains a unique blend of essential fats like MCT, CLA, Flax seed oil resulting in greater gains in lean muscle mass versus fat muscle mass. Thus providing the best combination essential for best possible gains.

## KEY TO MUSCLE GROWTH: CREATINE

It is very rare to get creatine added in a mass gaining supplement. Although it is now possible to get creatine with some gaining formulas, the type and amounts of creatine contained comes out to be a drawback. Though they contain creatine, is it completely absorbed by the body is again a question. **ISOMASS XTREME GAINER** contains 7 types of fast acting creatine that ensures full absorption providing maximum energy to muscle cells which then translates to rapid muscle growth.

## BLEND OF BCAA

BCAA are strongest muscle building ammunitions. These are essential amino acids the body cannot make. Unlike other muscle gaining formulas **ISOMASS XTREME GAINER** contains BCAA, not only because of their muscle building effects but also because they can't be made by the body.

## ADVANTAGE OF GLUTAMINE

Glutamine is a staple in almost every bodybuilder's supplement regimen due to its proven positive effect on muscle growth. **ISOMASS XTREME GAINER** contains four advanced types of fast absorbing glutamines; L-glutamine, glutamine alpha ketoglutarate, glutamine ethyl ester and n-acetyl l-glutamine unlike any other muscle gaining formula in the market.

## ADDED BENEFIT OF NITRIC OXIDE BOOSTER

Nitric Oxide Boosters are usually sold as a stand alone product in the market. **ISOMASS XTREME GAINER** contains added nitric oxide boosters along with all other nutrients to deliver all beneficial components in a single packet. This means more muscle building components will be delivered to your muscles so that they do their job and stimulate muscle growth. In addition, it provides a full vitamin/mineral complex and digestive enzyme blend. In this way **ISOMASS XTREME GAINER** dont leave a single essential nutrient and conventionally covers all your muscle building supplement needs in one convenient formula. Moreover, it delivers ultimate taste and comes to you in 7 ultimate flavors to nourish you in a tasty, healthy way.

**So pick up the ultimate combination for lean muscles – ISOMASS XTREME GAINER.**
